

## Faculty of **Business**

Programs in Faculty of Business (FOB) are designed to meet the nation's talent shortages and insure that all of our students are well-positioned to compete for jobs in Indonesia and abroad. Students in FOB have unique study abroad opportunities through our partnerships with U.S. universities. In 2017, all FOB graduates had accepted job offers and begun employment within 2 months of graduation.

## ACCOUNTING PROGRAM

The increasing complexity, uncertainty and ambiguity in business environments make it difficult for organizations to create and preserve better values. Our accounting program is designed to prepare you intellectually and practically to embrace these complexities and address the wider socio-political and cultural challenges through astute, fiscally appropriate and socially responsible accounting practice. You will not be only equipped with knowledge in reporting, analyzing and managing financial resources, but also with the skills to utilize top global accounting technology, including Enterprise Resource Planning (ERP) system and Galvanize.

In addition to meeting the education requirements for membership of the professional accounting bodies in Indonesia or in global, our degree offers flexibility for you to earn accounting certifications from professional accounting bodies and well-known information technology providers. Gaining these academic and professional attributes will enhance your accounting career opportunities, or pursuance of advanced accounting studies.

### Competencies to achieve:

- The ability to integrate theoretical and technical accounting knowledge in business context.
- The awareness and application of existing and emerging digital technologies and information systems.
- Exercise judgment to provide potential solutions to accounting and other business problems by considering social, ethical, economic, regulatory, sustainability, governance and/or global perspectives.
- The ability to anticipate future trends by extrapolating existing trends and facts, and filling the gaps by thinking innovatively.
- The ability to evaluate and manage risks that might prevent organizations from successfully implementing strategy.

### Career Pathways

Our graduates of the Accounting Study Program have many possible career pathways, which include but are not limited to:

- Financial Accountant
- Tax consultant
- Cost controller
- Financial controller
- Financial analyst
- Internal control & Risk management specialist
- Public accountant
- Internal auditor
- Fraud auditor
- Accounting information system specialist
- Government accountant
