

Faculty of **Business**

Programs in Faculty of Business (FOB) are designed to meet the nation's talent shortages and insure that all of our students are well-positioned to compete for jobs in Indonesia and abroad. Students in FOB have unique study abroad opportunities through our partnerships with U.S. universities. In 2017, all FOB graduates had accepted job offers and begun employment within 2 months of graduation.

ACCOUNTING PROGRAM

The increasing complexity, uncertainty and ambiguity in business environments make it difficult for organizations to create and preserve better values. Our accounting program is designed to prepare you intellectually and practically to embrace these complexities and address the wider socio-political and cultural challenges through astute, fiscally appropriate and socially responsible accounting practice. You will not be only equipped with knowledge in reporting, analyzing and managing financial resources, but also with the skills to utilize top global accounting technology, including accounting and risk management softwares, namely Accurate and and Galvanize.

In addition to meeting the education requirements for membership of the professional accounting bodies in Indonesia or in global, our degree is designed based on international accounting education standard. We also offer you opportunities to earn various accounting certifications, for example Certified Accurate Professional, Brevet Tax A&B, ACCA Diploma in Accounting & Business, and so forth. Gaining these academic and professional attributes will enhance your accounting career opportunities, or pursuance of advanced accounting studies

Competencies to achieve:

A. Main Competencies

- Able to integrate theoretical and technical accounting knowledge to provide potential solutions to accounting and other business problems.
- Able to apply existing and emerging digital technologies and information systems to support decision makings.
- Able to evaluate and manage risks that might prevent organizations from successfully implementing strategy.

B. Supporting Competencies

- The ability to make decision making by thinking innovatively and considering social, ethical, economic regulatory, sustainability, governance and/or global perspectives.
- Able to communicate effectively and to establish teamworks with people from various backgrounds.
- Able to adapt in rapidly changing situations and to compete in a global environment
